Legal and insurance issues affecting the CRO industry - a forum for discussion

The forum will address consultancy and clinical trial legal and insurance issues to help companies operate securely in an uncertain and changing environment. It will be participant driven and delegates are encouraged to flag as many questions as possible in advance.

The session will cover:

- An introduction to the insurance requirements for companies providing consulting services and/or clinical trials in all Phases.
- The legal aspects of providing advice (errors and omissions) when conducting clinical trials.
- The insurance indemnity the service providers should expect from the Sponsor.
- The impact that the EU Directive will have on insurance and indemnity and practical solutions for meeting its requirements.

SPEAKERS

Mr Andrew Catton

Director of Science and Technology, Miller Insurance Services.

Dr Lincoln Tsang

Barrister, Arnold & Porter
